

WELLS GOLF CLUB

Buggy and Trolley Winter Golf Policy

Effective from Monday 16th October 2017

The purpose of this Stage Restriction Policy is to:

- Protect the course through winter months
- Improve playability of the course throughout the year
- Ensure the safety of all course users at all times
- Limit damage caused by buggy, trolley and golfer use during wet, frosty and other seriously adverse weather conditions.

Buggy (this includes both hire and personal ride-on) and trolley use in winter months, may be reduced in the following stages to avoid damage to the course and risk to course users.

Stage 1 Hole 1 – closed to all buggies. Proceed by path to Hole 2.

Stage 2 No buggies allowed on Holes 1 and Holes 13 to 18.
On Holes 2, 5 and 10 – buggies must remain on pathways.
On Holes 3, 6 and 7 – buggies to keep on the left of fairways.
On Holes 4, 8, 9, 11 and 12 – buggies to keep on the right of the fairways.

Stage 3 No hire buggies or ride-on buggies allowed. Electric trolleys, push trolleys or carry only allowed on course.

In respect of **Stage 2** above, buggies to be left adjacent to the fairway and players must walk Across - follow the 90-degree rule.

The course condition will be re-assessed every 2 hours when the above Stage Restrictions are in place. Remember to ensure buggies and trolleys keep 3m away from the greens at all times.

The relevant **Stage** condition will be identified by signage on the 1st tee. A course plan clarifying the **Stage 2** path routes, is available from the office and Pro Shop.
